

## Table Top Curve Display Easy Assembly

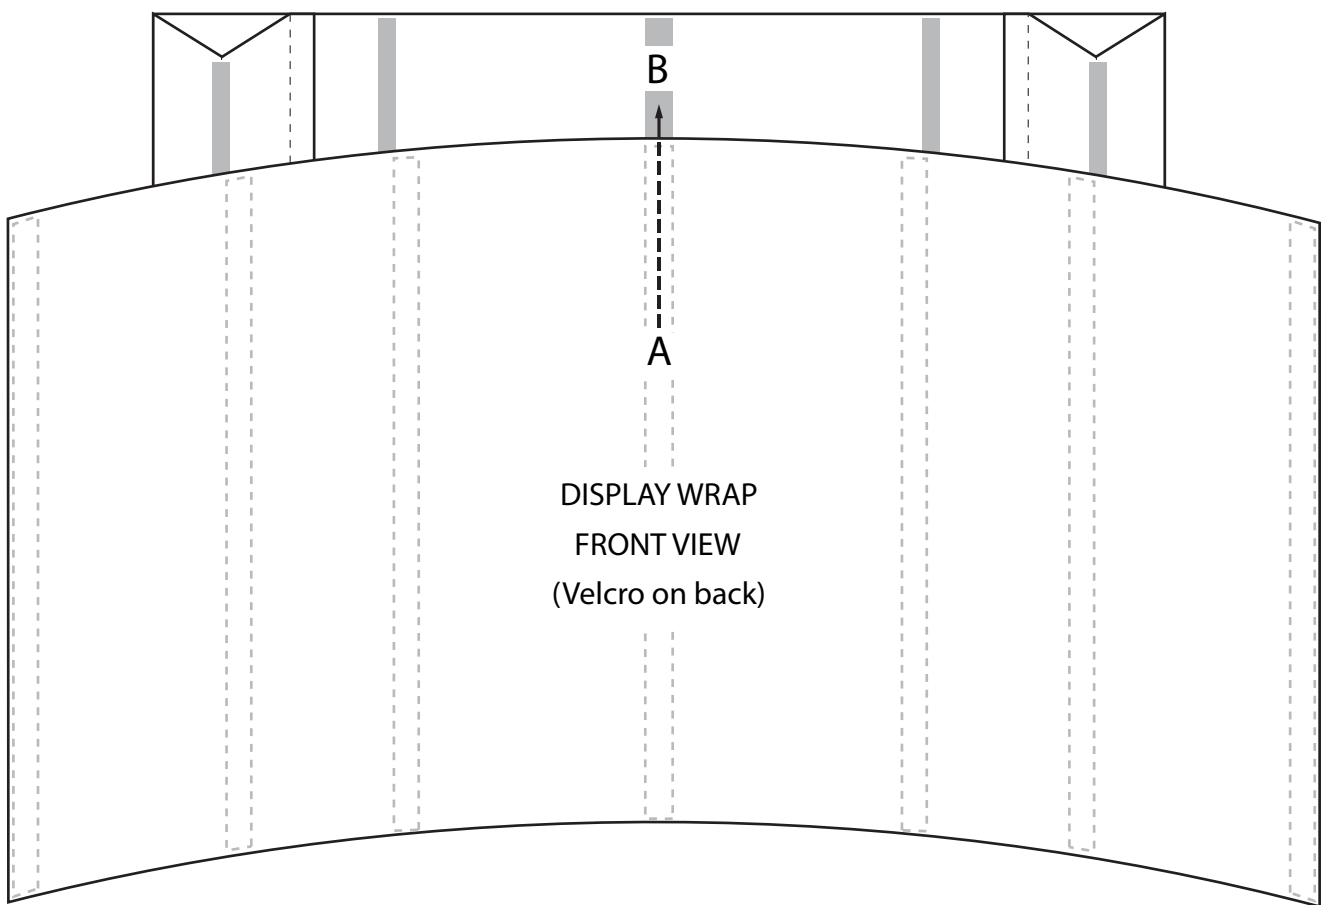

Contents: 1 support panel, 1 display wrap

1. Fold pre-scored support panel as shown below, aligning corresponding velcro areas - press together firmly to attach.

2. Attach display wrap to front of support panel, starting from the center - by pressing velcro on display wrap center/back [A] to velcro on support panel center/front [B]. Gently smooth out from center till reaching remaining pre-attached velcro strips. Continue to adhere display wrap by pressing velcro to velcro.

3. Lastly, attach velcro at ends of display wrap to the velcro on the backside of support panel.
