

CHK 12

12" Table Top Checkers Game

Standard Checkers Pieces

NOTE:
Custom player pieces, in compliance with the CPSC, Consumer Product Safety Commission must be larger than the following dimensions:

Small parts cylinder

With a small parts cylinder you can check all the things that could be dangerous for your child put in her/his mouth.

The small parts cylinder has the same size as a year old child's windpipe.

If a component or parts can fit entirely within the cylinder in any orientation, the component is considered as **SMALL PARTS** and is a potential choking hazard, otherwise, it is not considered as small parts.
